MotoGP™ EXPERIENCE

“We were very satisfied. This will be an unforgettable experience. We thank you for your efforts and for the smooth running.”

Bernd Dölker
MotoGP VIP Village™ Guest
Gran Premio d’Italia Oakley 2018

Born in 1949 and bred into the fastest two-wheeled spectacle on Earth, MotoGP™ spans five continents and 16 countries across 19 Grands Prix.

THIS IS MotoGP™

The most technologically advanced and fastest prototype machinery on the planet, MotoGP™ machines produce over 250hp, go from 0-100km/h (62mph) in under three seconds and hit top speed above 350km/h (217mph) – all while weighing in at less than 160kg.

The fastest riders in the world muscle these machines around 19 tracks that test man and machine to the limit, with lean angles of over 60-degrees and braking forces clocking in at more than 1.5G.

Sound impressive? That's just what's under the skin.

The spectacular overtaking and racing action from the 22 riders on the grid has to be seen to be believed, with thousandths of a second often separating the hero from zero.

Precision, commitment, speed and bravery. **This is MotoGP™.**
